**Defective/unusable\* HP printheads:**

\*HP Black printheads are more or less prone to scratches - depending on the type - and the HP Color to heat dents and/or scratches on the nozzle plates. And that has been the case for many years across ALL suppliers. Such defective/unusable cartridges will not be reimbursed. You pay no disposal costs. Heat dents on the plates occur because the print head is heated up to shoot ink. Ink also acts as a coolant. With the Colors, much less ink runs through the print head than with the Black. This can - but does not have to - lead to overheating. Scratches occur more quickly with the Colors than with the Blacks because the nozzle plates are much larger or the Blacks have no nozzle plate.

## How do I find the buy / purchase price for my empty cartridge?

First, look at the **large** number on your cartridge's label. This number is then also on the left in the buy / purchase list and on the right is the buy / purchase price. The light blue column is the buy price for empty and half-full originals.

You can find the buy price for full originals in our special purchase list for full ones read below.

The pink column in the buy / purchase list on the right is the purchase prices for empty, half-full and full compatibles, refills etc.

Buying / Buy Canon cartridges: Sell / Selling empty printer cartridges, expiry

Buying / Buy HP cartridges: Sell / Selling empty printer cartridges, expiry

## How do I identify a setup or instant ink cartridge on the HP label?

See the red marking, it says Instant Ink and/or Setup.

Buying / Buy HP Instant Ink cartridges: Sell / Selling empty Instant Ink printer cartridges from HP, expiry

## What does HP Setup/Instant Ink “Long Version” mean?

These are the cartridges with the elongated design. Less is paid for these because the printers are less widespread than those with the “normal” design. Remanufactured or “mechanically” do not fit into all HP printers.

## Delivery address:

**Die Freie Agentur  
Kathleen Rabis  
Klützer Str. 13  
Germany - 13059 Berlin**

**CONDITIONS:** Payment is made by bank transfer within 10 working days. Pack full goods well separated from any empties so that they do not get dirty.

### How old can empty and full ink cartridges and full toners be and how should they be packed?

**ink cartridges:** Ink cartridges that have dried up for months or years, as well as smoking pet households are no problem! Please do not stick "Tesa"/adhesive tape or similar to the cartridge, this will clog the nozzles. We are also happy to take half-full and full cartridges of all types. If the vacuum tape is still on the nozzle, please do not pull it off, it protects the cartridge! For full cartridges in undamaged (!!!) original foil or box (condition does not matter), please first look at our purchase list for full cartridges to see if you can get more money there. Older than the best before date (BBD) 2019, we charge as empties. For example BBD 2018, 2017, 2016.

The empty ink cartridges do not have to be in the original box. Simply stack them next to each other with the nozzles or opening facing upwards. Foil on top and then upholstery of your choice. Otherwise the pad will become soaked with ink. If you have multiple layers of cartridges, separate the layers with non-absorbent material (foil, plastic bags, plastic garbage bags, etc.). Never wrap/pad individual ink cartridges and layers with paper towels, newspapers or paper towels! These materials will soak and then soak the cardstock with ink. Each cartridge does not have to be wrapped individually, which saves you and us a lot of time. Defective ink empties will be disposed of free of charge or, by arrangement, returned at your expense. Empty ink bottles that we do not buy, we dispose of free of charge as a gesture of goodwill. We will return heavily soiled deliveries. Never wrap empty ink cartridges directly in absorbent material, such as kitchen paper, paper, etc., which will become soaked and soil the goods right through to the shipping box.

**Inks** we sort collection boxes for you. However, if there are empty, leaked toners and anything other than cartridges, we will refuse acceptance!

**Full toners:** Pad well and separate from any merchandise that could leak and soil the toner box. Older than best before date (BBD) 2016 no acceptance! For example BBD 2015, 2014, 2013.

**Empty toners:** Please leave in original packaging or foil, if available. Alternatively pack individually in other foil bags or wrap individually in paper. Otherwise leaking residual toner could soil the other goods. Wear a mask and rubber gloves when handling "empty toner", because toner dust is fine dust...

**Postage contribution or free collection:**

Unfree packages (without postage) will not be accepted. You will incur a return postage fee of at least €12.00 from your parcel service. **Tip for sending fewer cartridges:** Use an air cushion envelope. Alternatively, a cheaper paper envelope + the cartridges in a plastic bag, freezer bag, etc., so that they do not fall out if the paper envelope tears.
